CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

ERIC G. BEAUCHAMP and D. J. LATHWELL, Root-zone temperature effects on the early development of maize . . . . . 224

J. COLOM and A. R. WOLCOTT, Forms of organic nitrogen in clay-amended sand soil . . . . . 261

D. L. DEB and N. P. DATTA, Effect of associating anions on phosphorus retention in soil. I. Under variable phosphorus concentration . . . . . 303

D. L. DEB and N. P. DATTA, Effect of associating anions on phosphorus retention in soil II. Under variable anion concentration. . . . . 432

CARMEN DIEZ-ALTAREZ and ELEMER BORNEMISZA, The localization of zinc-65 in germinating corn tissues . . . . . 175

H. W. DOUGALL and H. F. BIRCH, Further experiments on the acid grass *Setaria sphacelata* . . . . . 85

D. H. DREW, Mineral nutrition and the water relations of plants. I. A comparison of the effects of mineral-free water and nutrient solutions on water uptake and transpiration . 158

D. H. DREW, Mineral nutrition and the water relations of plants. II. Some relationships between mineral nutrition, root function and transpiration rate . . . . . 469

W. DIJKSHOORN and A. L. VAN WIJK, The sulphur requirements of plants as evidenced by the sulphur-nitrogen ratio in the organic matter. A review of published data . . . . . 129

W. O. ENZEWOR, Soil drying and organic matter decomposition. . . . . 269

G. EVANS, J. B. CARTWRIGHT and N. H. WHITE, The production of a phytotoxin, nectrolide, by some root-surface isolates of *Cylindrocarpon radicicola*, Wr. . . . . 253

M. J. Frissel and P. Poelstra, Chromatographic transport through soils I. Theoretical evaluations . . . . . 285

Dr. F. C. Gerretsen 1889–1966. . . . . 1

Umesh C. Gupta, *Short communication.* The boron determination of some plant materials as determined with and without adding CaO before ashing . . . . . 202

F. L. Himes and C. Bloomfield, *Short communication.* Extraction of triacontyl stearate from a soil . . . . . 383

Paul B. Hoyt, Chlorophyll-type compounds in soil. III. Their significance in arable soils. . . . . 5

H. E. Joham and J. V. Amin, The influence of foliar and substrate application of manganese on cotton . . . . . 369

Harry H. Johnston, *Short communication.* The incorporation of various compounds into sterile corn roots . . . . . 193

P. K. Khanna, Inorganic soil phosphate fractions as related to soil-test values by common methods . . . . . 277

D. G. Lewis and J. P. Quirk, Phosphate diffusion in soil and uptake by plants. I. Self-diffusion of phosphate in soils. . . 99

D. G. Lewis and J. P. Quirk, Phosphate diffusion in soil and uptake by plants. II. Phosphate uptake by wheat plants . . 119

D. G. Lewis and J. P. Quirk, Phosphate diffusion in soil and uptake by plants. III. $P^{31}$-movement and uptake by plants as indicated by $P^{32}$-autoradiography . . . . . 445

D. G. Lewis and J. P. Quirk, Phosphate diffusion in soil and uptake by plants. IV. Computed uptake by model roots as a result of diffusive flow . . . . . 454

M. Litav and John L. Harper, *Short communication.* A method for studying spatial relationships between the root systems of two neighbouring plants . . . . . 389

I. C. MacRae and Teresita F. Castro, Root exudates of the rice plant in relation to akagare, a physiological disorder of rice . . . . . 317

O. N. Mehrotra, N. S. Sinha and R. D. L. Srivastava, Studies of nutrition of Indian cereals. I. The uptake of

**International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.**

**Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.**

**Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.**

*Issued under the auspices of the*

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

**Executive Editors:** D. I. Arnon, Berkeley; J. Baeyens, Louvain; G. W. Harmsen, Groningen; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

**Secretary:** G. H. Arnold

**Assistant Secretary:** J. K. Smit

c/o Institute for Soil Fertility
Groningen, Netherlands

**Consulting Editors**; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; F. G. Gregory, London; A. J. de Groot, Groningen; W. R.C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis; L. K. Wiersum, Groningen.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Groningen

*Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel*

nitrogen by wheat plants at various stages of growth as influenced by phosphorus . . . . . 361

W. F. NUTTAL, A. L. CARTER and B. P. WARKENTIN, *Short communication.* Counting emissions from potassium-42 in plant tissue with a liquid scintillation spectrometer . . . . 385

D. PURVES, *Short communication.* Contamination of urban garden soils with copper, boron and lead . . . . . 380

S. RAVIKOVITCH and A. PORATH, The effect of nutrients on the salt tolerance of crops . . . . . 49

A. S. J. REID, G. L. CUMMING and G. R. WEBSTER, *Short communication.* A gas converter for preparing nitrogen samples for mass spectrometric analysis . . . . . 196

R. RODRIGUEZ-KABANA, *Short communication.* An improved method for assessing soil-fungus population density . . . . 393

D. A. VAN SCHREVEN, The effect of intermittent drying and wetting of a calcareous soil on carbon and nitrogen mineralization . . . . . 14

M. SELÇUK und F. GROSSMANN, Einfluss der Gründüngung auf das Auftreten der Fusarium-Welke an Baumwolle in Gefässversuchen . . . . . 413

M. B. SEN GUPTA, *Short communication.* A study on the soil phosphate potential . . . . . 199

SHEN LIAN and A. TANAKA, Behaviour of photosynthetic products associated with growth and grain production in the rice plant . . . . . 333

L. G. VAN DER STARRE-VAN DER MOLEN, G. A. H. BOSSINK and A. QUISPEL, The influence of colchicin on root nodule formation in *Trifolium pratense* . . . . . 397

A. A. STEINER, *Short communication.* Growth curves of tomato plants . . . . . 189

W. D. P. STEWART and M. C. PEARSON, Nodulation and nitrogen-fixation by *Hippophaë rhamnoides* L. in the field . . . 348

S. M. TAHA, S. A. Z. MAHMOUD and A. N. IBRAHIM, Microbiological and chemical properties of paddy soil . . . . . 33

J. A. THOMPSON and J. M. VINCENT, Methods of detection and estimation of rhizobia in soil . . . . . 72

ALBERT ULRICH, M. A. TABATABAI, K. OHKI and C. M. JOHNSON, Sulfur content of alfalfa in relation to growth in filtered and unfiltered air . . . . . 235

G. M. WARD, Greenhouse cucumber nutrition: A growth analysis study . . . . . 324

C. H. WILLIAMS, Some factors affecting the mineralization of organic sulphur in soils . . . . . 205
